ASBS Graduate Teaching Assistant (GTA) - Student Evaluation Responses Report

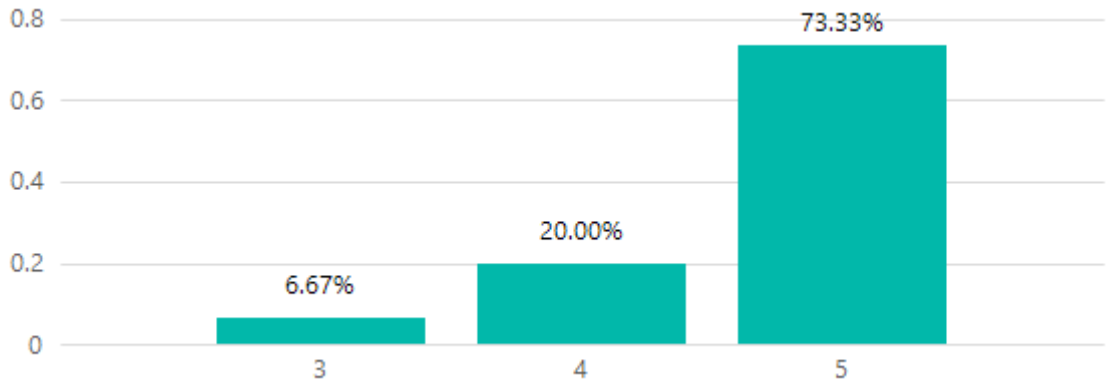
This report provides an overview of the student-submitted evaluation forms for Dehua Li and course(s): econ4019. This report was produced on 09/04/2026 14:20:36 and authorised by Dr Anthony Devine, Director of Learning & Teaching at the Adam Smith Business School.

Report Overview

The student evaluation feedback form is provided to students to gather feedback from respondents across eight distinct areas. Survey sections 1-5 require respondents to rate their level of agreement with given statements on a scale from 1 to 5, in relation to clarity of instruction, teaching adaptability, encouragement of student participation, interaction and cooperation, and student ability to raise questions, with 1 signifying strong disagreement and 5 denoting strong agreement. The remaining sections solicit open-ended comments from respondents, seeking insights into the themes of learning and teaching, notable aspects of tutorial delivery as well as recommendations for tutorial enhancements.

Summary of Responses

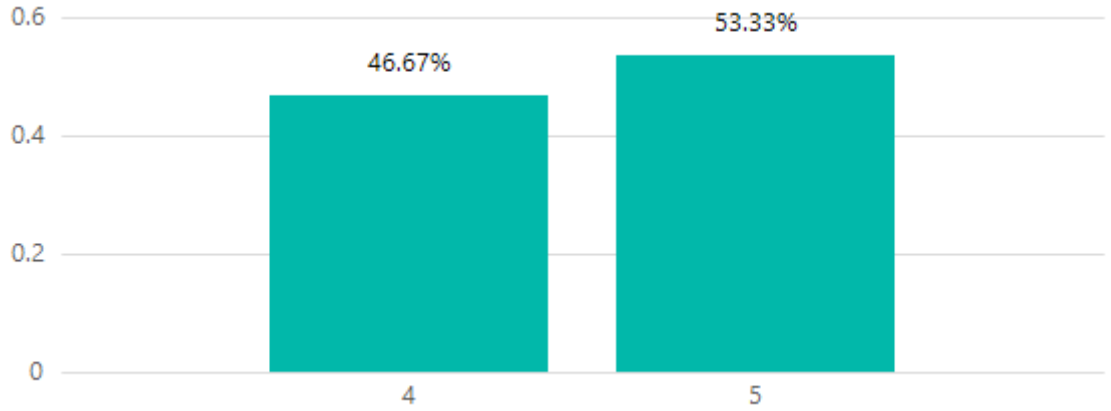
Summary of responses received (15) for Dehua Li regarding course(s) econ4019 - Macroeconomic analysis



1. The tutor gave clear instruction about the set work

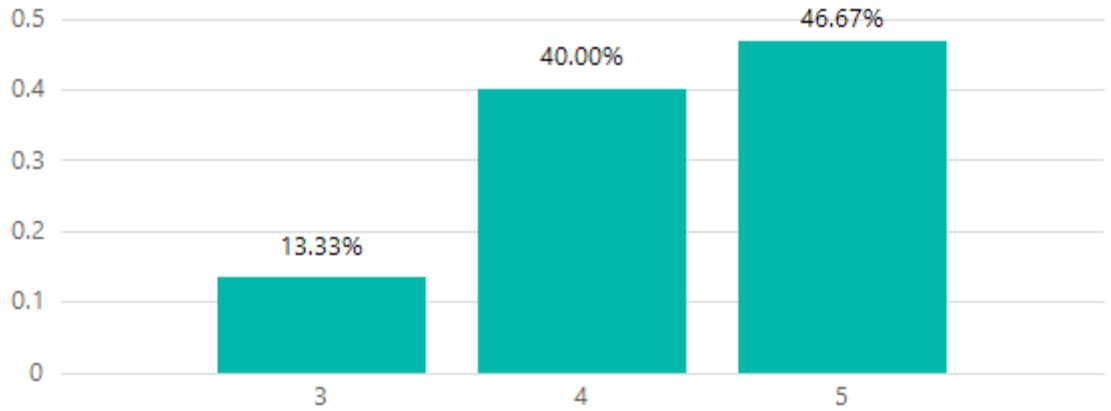
mean	count	min	max
4.67	15	3	5

2. The tutor recognised group or individual dynamics and adapted the teaching activity to suit



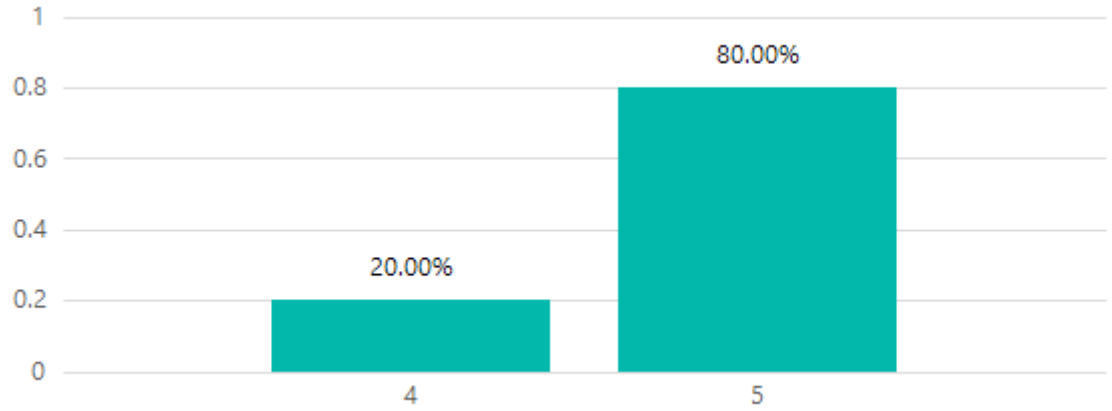
mean	count	min	max
4.53	15	4	5

3. The tutor encouraged students to participate in class discussion/debate



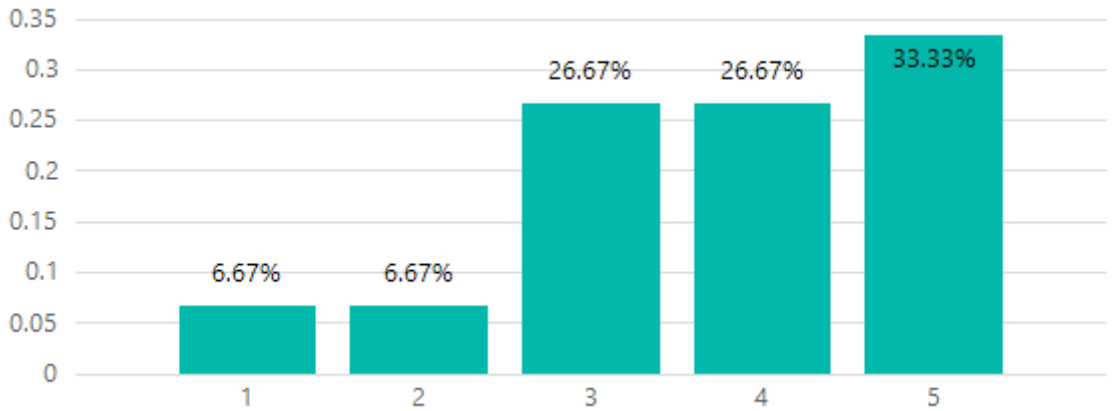
mean	count	min	max
4.33	15	3	5

4. I felt comfortable asking my tutor questions



mean	count	min	max
4.80	15	4	5

4. The tutor encouraged students to interact with each other and work cooperatively



mean	count	min	max
3.73	15	1	5

6. What are the three most important things you learned in this tutorial?

Out of 15 respondents, 15 provided details to which areas were considered the most important things learned in the tutorial.

"The chain rule taking time into account and how that creates dot variables"

"Tutorial was helpful for understanding output growth under endogenous growth model. Was also very helpful for deriving growth rates "

"Solow's Model, Romer's Model and intertemporal budget"
"How to approach a mathematical proof in economics. "
"."
"Improved differentiation Clear layout of answers Deeper understanding of applied course knowledge "
"How to methodically work through questions How to clearly lay out mathematical solutions Insights into the labour market mechanisms"
"How to approach each question step by step, how to derive formulas in a simple way, how to make sure diagrams get full marks."
"Process of solving problems Correct notation Interpretation of results "
"How to properly answer questions How what we learn in class may appear in a question Better understanding of formulas "
"Expanded on lecture materials in further detail helping overall understanding of the course content"
"Algebra needed for this course How to draw graphically How to apply the equations/graphs to real life situations "
"Algebra skills "
"How to derive the models presented in the course and conduct graphical analysis."
"Slow model Endogenous growth Malthusian model"

7. What parts of the tutorial helped your learning most?

Out of 15 respondents, 15 submitted comments in relation to which parts of the tutorial helped learning most.

"Set out class revision tome in the 6th week"
"Tutorial spent a lot of time answering our specific questions, was very attentive to things we hadn't quite understood. Graphing was most helpful "
"The tutor's explanation was clear and he explained all the concepts well, both theoretical and mathematical."

"The way the tutor solved questions on the white board rather than just showing slides. "
"."
"Explanations are very clear and helpful"
"The way he writes down the answers"
"The whiteboard explanation "
"Going through each step clearly "
"Seeing answers explained on the board"
"Going through the questions step by step, in as much detail required by the students. Also explaining what was happening, and why"
"Showing the movements graphically and explaining all equations "
"Asking the tutor questions during the tutorial, he was good at answering them"
"Worked examples and solutions "
"Malthusian model"

8. Do you have any specific recommendations for improving this tutorial?

Out of 15 respondents, 15 in relation to specific recommendations for improving the tutorial.

"No"
"No, Dehua ran a great tutorial "
"No"
"If the tutor could slow down the pace of the class a little. "
"No"
"No all is perfect "
"No"
"No"
"Maybe to create powerpoint of solutions I had another tutor do it and helped a lot when studying/if missed a class"
"No"
"No"
"No "
"Give us a chance to answer more questions maybe, seems like he talked us through all the answers"
"No"
"No"

9. Any additional comments

Out of 15 respondents, 3 provided additional comments

"Maybe more revision tutorials if there is extra time"
"Great tutor! "
"No"
